

PROTOCOLE OPERATOIRE / OPERATIVE REPORT

Site: Royal Victoria Hospital

Date: 2024-10-03 17:43

Anesthésiste / Anesthetist: Dr. Camille Roy

Chirurgien / Surgeon: Dr. Sarah Johnson

Assistant(s): Dr. resident John Paul

Diagnostic préopératoire / Pre-operative diagnosis:

RUPTURED APPENDICITIS.

Diagnostic postopératoire / Post-operative diagnosis:

APPENDICITIS WITH MESENTERIC LYMPHADENITIS.

Opération / Operation:

LAPAROSCOPIC CONVERTED TO OPEN APPENDECTOMY.

Tissu envoyé en pathologie / Tissue sent to pathology: Appendix and mesoappendix

Anesthésie / Anesthesia: General anesthesia with nitrous oxide

Historique et constatations opératoires / History and operative findings:

Pediatric patient (7, female) presenting with acute onset abdominal pain with vomiting. History: no prior abdominal surgery. Imaging confirmed appendicitis.

Procédure(s) opératoire(s) / Operative procedure(s):

Patient in supine position. General endotracheal anesthesia administered. Time-out was performed and abdomen prepped in sterile fashion. Incision is made in left lower quadrant for open conversion. Accessory port placed in epigastric region. No iatrogenic injuries occurred during trocar placement. Upon entering the abdominal cavity, extensive adhesions noted. Findings include perforated appendix with diffuse inflammatory changes. A moderate amount of purulent material was present in the pelvis. Severe adhesions required careful lysis. The appendix is mobilized using a combination of sharp and blunt dissection. The mesoappendix is divided using a bipolar energy device. The appendix is ligated at its base with two absorbable sutures and then amputated. Specimen placed in EndoCatch bag for removal. Irrigation performed with antibiotic solution. We close the fascia with Polysorb 2-0 in a interrupted fashion. Skin is approximated with interrupted nylon 4-0.

Discharge home when tolerating oral intake and afebrile. No intraoperative complications occurred. The patient tolerated the procedure well with minimal blood loss.

Case ID: CASE-N9P902-11295
