

PROTOCOLE OPERATOIRE / OPERATIVE REPORT

Site: Jewish General Hospital

Date: 2024-11-04 16:32

Anesthésiste / Anesthetist: Dr. Thomas White

Chirurgien / Surgeon: Dr. Marie-Claire Dubois

Assistant(s): Dr. resident Carlos Mendez

Diagnostic préopératoire / Pre-operative diagnosis:

SUPPURATIVE APPENDICITIS.

Diagnostic postopératoire / Post-operative diagnosis:

APPENDICITIS WITH PERITONEAL CONTAMINATION.

Opération / Operation:

OPEN APPENDECTOMY WITH PELVIC LAVAGE.

Tissu envoyé en pathologie / Tissue sent to pathology: Appendix

Anesthésie / Anesthesia: General anesthesia with local infiltration

Historique et constatations opératoires / History and operative findings:

Pediatric patient (12, male) presenting with acute onset abdominal pain with rebound tenderness. History: family history of appendicitis. Imaging confirmed appendicitis.

Procédure(s) opératoire(s) / Operative procedure(s):

Patient in supine position. Total intravenous anesthesia administered. Time-out was performed and abdomen prepped in sterile fashion. A small infraumbilical incision is made and the abdominal cavity is entered under direct vision. Additional 5 mm trocars are placed in the right and left lower quadrants under laparoscopic guidance. No iatrogenic injuries occurred during trocar placement. Upon entering the abdominal cavity, minimal adhesions noted. The appendix was shrunken with moderate inflammation. A small localized abscess was found and drained. Multiple bowel loops adherent to the mass. Meticulous dissection performed due to distorted anatomy. The mesoappendix is divided using a bipolar energy device. Endoscopic stapling is used for appendiceal division. Specimen placed in EndoCatch bag for removal. Thorough irrigation of the abdominal cavity is performed, removing all purulent material. We close the fascia with Ethibond 2-0 in an interrupted fashion. Skin is approximated with Steri-Strips.

Monitor for signs of infection; advance diet as tolerated. The patient tolerated the procedure well with minimal blood loss.

Case ID: CASE-C927H6-11236
