

# PROTOCOLE OPERATOIRE / OPERATIVE REPORT

Site: Hopital Pierre-Boucher

Date: 2025-06-22 02:03

Anesthésiste / Anesthetist: Dr. Paul Anderson

Chirurgien / Surgeon: Dr. Aisha Patel

Assistant(s): Dr. resident Jennifer Park

Diagnostic préopératoire / Pre-operative diagnosis:

**LOCALIZED PERITONITIS SECONDARY TO APPENDICITIS.**

Diagnostic postopératoire / Post-operative diagnosis:

**PERFORATED APPENDICITIS.**

Opération / Operation:

**APPENDECTOMY WITH LYSIS OF ADHESIONS.**

Tissu envoyé en pathologie / Tissue sent to pathology: Appendix and abscess wall

Anesthésie / Anesthesia: Total intravenous anesthesia

## Historique et constatations opératoires / History and operative findings:

Patient (16 years, female) presented with abdominal pain with anorexia, elevated WBC, normal CRP. Imaging: ultrasound showing phlegmonous appendicitis.

## Procédure(s) opératoire(s) / Operative procedure(s):

Patient in supine position. General endotracheal anesthesia administered. Time-out was performed and abdomen prepped in sterile fashion. Incision is made in left lower quadrant for open conversion. We place two additional trocars, one in the suprapubic region and one in the left lower quadrant, both under direct vision. No iatrogenic injuries occurred during trocar placement. Upon entering the abdominal cavity, minimal adhesions noted. Appendix was friable and surrounded by No abscess, but turbid fluid present. and The appendix was adhered to surrounding structures. Blunt dissection is used to free the appendix from surrounding structures. Appendiceal vessels controlled with clips. Base of appendix secured with purse-string suture prior to removal. Specimen placed in EndoCatch bag for removal. Copious irrigation is undertaken to ensure removal of all inflammatory debris. We close the fascia at the umbilical port with figure-of-eight sutures of Vicryl 2-0 and the skin with subcuticular Vicryl 4-0.

Pain control with acetaminophen and morphine as needed. The patient tolerated the procedure well with minimal blood loss.

Case ID: CASE-TWAVP9-11298
