PROTOCOLE OPERATOIRE / OPERATIVE REPORT

Site: Ste-Agathe Hospital

Date: 2025-09-23 06:35

Anesthésiste / Anesthetist: Dr. Amélie Moreau

Chirurgien / Surgeon: Dr. Paul Lambert

Assistant(s): Dr. resident Carlos Mendez

Diagnostic préopératoire / Pre-operative diagnosis:
APPENDICITIS WITH SEPSIS.

Diagnostic postopératoire / Post-operative diagnosis:
APPENDICITIS WITH PELVIC ABSCESS.

Opération / Operation:
OPEN APPENDECTOMY.

Tissu envoyé en pathologie / Tissue sent to pathology: Appendix and peri-appendiceal tissue

Anesthésie / Anesthesia: General anesthesia

Historique et constatations opératoires / History and operative findings:

15-year-old male with 1 day abdominal pain, normal WBC, elevated CRP, no fever. Imaging: MRI demonstrating RLQ inflammation. no prior abdominal surgery. Recent travel history may be relevant.

Procédure(s) opératoire(s) / Operative procedure(s):

Patient in supine position. General anesthesia with nitrous oxide administered. Time-out was performed and abdomen prepped in sterile fashion. A small infraumbilical incision is made and the abdominal cavity is entered under direct vision. Single-incision laparoscopic port is used. No iatrogenic injuries occurred during trocar placement. Upon entering the abdominal cavity, extensive adhesions noted. The appendix was perforated with intense inflammation. No abscess was identified. No abnormal adhesions found. No bowel injury noted. Surrounding omentum and bowel are separated from the inflammatory mass. The appendiceal artery is ligated and divided. The appendix is ligated at its base with two absorbable sutures and then amputated. Specimen placed in EndoCatch bag for removal. We lavage the abdomen extensively, paying particular attention to the pelvis and right gutter. We close the fascia with PDS 3-0 in a interrupted fashion. Skin is approximated with subcuticular Monocryl 4-0.

Continue surgical care with antibiotic therapy and diet advancement as tolerated. The patient tolerated the procedure well with minimal blood loss.

Case ID: CASE-J6H0G1-12639
